PROFILE

I'm a passionate Frontend Developer with 5+ years of experience crafting intuitive and engaging web experiences. Skilled in TypeScript, React, and Next.js, I specialize in building fast, accessible, and user-friendly applications. I have a strong eye for design and love bringing ideas to life through code.

WORK EXPERIENCE

FRONTEND DEVELOPER

Lumos Solutions

January 2023 - Present

- Developed and maintained a modern Next.js application for an e-commerce platform
- Optimized performance, reducing load times by 40% using Next.js static exports
- Implemented a CMS using Netlify Identity and Git Gateway for content management
- Ensuring user experience determines design choices
- Developing features to enhance the user experience

WEB DEVELOPER

Creative Studio

October 2020 - December 2023

- Built and deployed client websites using React and Tailwind CSS
- Collaborated with designers to translate Figma designs into pixel-perfect web pages
- Integrated SEO best practices using next-seo to improve visibility
